

Compliant with NCHRP-350 recommendations, the Phoenix™ sign stand is a simple and easy way to install a variety of signs with one stand design. Made of a recycled rubber base, plate and painted steel post, the Phoenix™ can accommodate aluminum signs up to 48". Once assembled, the base and plate can remain that way and thus reduce the volume required for transport and storage. It is also possible to combine two supports with boards to form a barrier if needed. With a weight of up to 40 lbs (without sign), the Phoenix™ sign stand offers great stability while maintaining a narrow profile that does not unnecessarily encroach on the traffic lane.

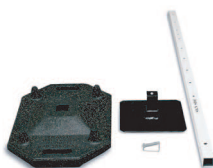

Technical Informations

Product N°:	90018
Dimensions	
Length:	683 mm (26,875")
Width:	445 mm (17,5")
Thickness:	89 mm (3,5")
weight (w/o post):	18,1 kg (40 lbs.)
1/16" square post:	44 x 1829 mm (1,75" x 6')
Materials	
base:	Recycled rubber
plate:	Powder-coated steel
post:	Powder-coated aluminum
Available Colours	
base:	Black
plate:	Black
post:	White

- Complies with NCHRP-350 recommendations
- High stability even with its narrow profile
- Can accommodate various sign sizes
