

The T-RV-6 channelizer drum is designed to offer maximum efficiency and meets the standards of the Ministère des Transports du Québec (M.T.Q.). Highly visible from all approach angles with its imposing monolithic appearance, it ensures the safety of both workers and motorists in roadwork zones. Made of soft polymer with flexible reflective sheeting and specially designed to return to its original shape after impact, the T-RV-6 channelizer drum is competitively priced and maximizes its performance being economical in use.

Technical Informations

Product N°:	T-RV-6
Dimensions	
Height:	900 mm (35,5")
Diameter:	300 to 375 mm (12 to 14,75")
Weight (w/ stabilizer):	10 to 15 kg (24 to 33 lbs.)
Materials	
Marker:	Polyethylene (PE) with UV protection
Orange Sheeting:	Diamond Grade – Type VIII
White Sheeting:	High Intensity Grade – Type IV
Stabilizer:	Recycled rubber
Available Colours:	
Marker:	Orange (custom colour also possible)
Sheeting:	Orange, White
Stabilizer:	Black

- Designed for zones of 70 km/h or less
- Increases safety for all users
- Resistant to more than 20 impacts

Options

Stabilizer made of
recycled tire sidewalls
Ø 380 mm (15")
9 kg (20 lbs)
#PES-20
