

In compliance with the standards of the Ministère des Transports du Québec (M.T.Q.), the T-RV-9 flat stackable marker has been designed to be virtually indestructible during normal use or in case of impact. Highly visible from the back as well as from the front, it ensures the safety of both workers and motorists in roadwork zones. Easy to move thanks to its light weight and integrated handle, the T-RV-9 can also be put back into service after impact, which makes it even more economical. In addition, with its flat shape (with notches), the T-RV-9 flat stackable marker can be easily stacked on top of each other for transportation and storage in a small space.

Technical Informations

Product N°: T-RV-9

Dimensions

Height: 1 290 mm (50,75")
Width: 360 mm (14,19")
Weight (with stabilizer): 13 à 19,5 kg (28 à 43 lbs.)

Materials

Marker: Polyethylene (PE) with UV protection
Orange Sheetig: Diamond Grade – Type VIII
White Sheeting: High Intensity Grade – Type IV
Stabilizer: Recycled rubber

Available Colours:

Marker: White
Sheeting: Orange, White
Stabilizer: Black

- Built-in handle
- Stackable
- Easy to carry and store

Options

Moulded stabilizer
432 x 686 mm (17 x 27")
13 kg (28 lbs)
#33028-VRB

Heavy moulded stabilizer
432 x 686 mm (17 x 27")
19,5 kg (43 lbs)
#33043-VRB
