

VM-14V

VEHICLE-MOUNTED ARROWBOARD

Ver-Mac's VM-14V is a 2' x 5' (684 mm x 1583 mm) 14-light arrowboard made of molded luran plastic. The VM-14V can be mounted on a variety of vehicles as we offer a mounting brackets for the perfect installation. Our wireless V-Touch AB controller that plugs into the cigarette lighter makes installation quick and easy since no cable is required between the arrowboard and the controller!

V-TOUCH AB CONTROLLER

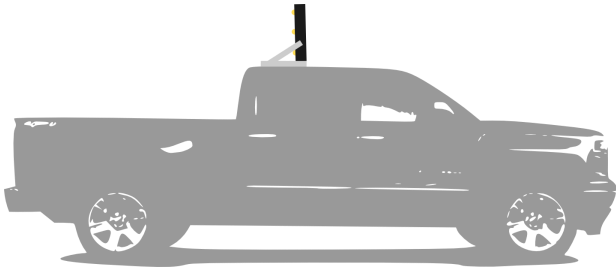

- No wire required—reduces installation, maintenance and repair costs
- Compact—3.75 in (95 mm) touch screen
- Intuitive point-n-go icons—allow you to quickly select arrow patterns/modes
- Backlighting screen—Perfect for nighttime use
- Real-time information—battery voltage level and arrow pattern
- Integration of accessories available (in option)

VM-14V
